About Me

Aspiring IT engineering student passionate about front-end web development and UI/UX design. Proficient in HTML, CSS, and JavaScript, I am dedicated to creating visually stunning and user-centric digital solutions. Eager to apply my skills and collaborate on exciting projects, I am actively seeking intern opportunities to gain real-world experience and contribute to innovative teams. With a strong drive for learning and an eye for design aesthetics, I am committed to crafting seamless and engaging user experiences.

Projects

PBL :
CHATBOT for college website
Created a chatbot feature for college website to get related info of university

DBMS :
Restaurant Management system
Various use-cases of a Restaurant Management System were implemented using Java and MySQL database

WT:
